

Property Graduate Program

The Corporate Property team offers an exciting and diverse two year graduate program.

This program allows graduates to experience the core Property functions and be a valued and appreciated member of our successful team!

The role of the Property Group within Woolworths Limited is to:

- Ensure we identify, secure and develop sites (via lease or purchase) that enable us to reach new customers and grow our business
- Better serve our existing customers through store refurbishment
- Manage day to day property matters throughout the country across a variety of our brands (Supermarkets, Liquor, Dick Smith and Big W)
- Provide property expertise regarding supply chain, office accommodation, etc.

And, what's more interesting is that the team achieves all of this whilst considering a multiple of impacts (for example, financial considerations, community impacts and government regulations)!

As our business continues to transform, the Property function plays a critical role in helping the business achieve its strategic goals.

The graduate program will provide graduates with the opportunity to work across our four key disciplines – Property Management, Property Development, Finance and Asset Management and, in doing so; will provide the graduates the relevant experience and knowledge to work towards a permanent placement within the team.

The Property Graduate Program presents graduates with the perfect opportunity to:

- Work with a variety of businesses under the Woolworths Limited banner and discover their strategy, goals and opportunities
- Develop strong negotiation, organisation and communication skills
- Be part of dynamic, fast-paced and highly valued projects
- Understand the key drivers and impacts on our business from a Property perspective

Who wouldn't want to say they were part of this supermarket coming to life?
